SEA EAGLE[®] RESCUE SKIFF

Exterior: 16' x 6'6"
Chambers: 4
Hull Weight: 224 lbs.
Hull Material: 1000 Denier Double Layered Reinforced
Material: All Drop-stitch Construction
Inflation: 15 Minutes
Weight Capacity: 6-10 Persons or 3300 lbs.
Engine Capacity: 20 hp

Sea Eagle[®] Rescue Skiff

Over 50 years of experience in the inflatable watercraft design and manufacturing has been brought to the front lines in the Sea Eagle Rescue Skiff. For many years the rescue industry has been awaiting a revolutionary breakthrough and Sea Eagle Boats is proud to announce it's finally here! The Patent Pending Rescue Skiff is the most innovative design in well over one hundred years. The four-chamber, all drop-stitch constructed, high-performance design places the Sea Eagle Rescue Skiff light years ahead of the rest and in the untouchable class of its own. From 0-26 mph in under 3 seconds with a 20 hp outboard and a max load capacity of 6-10 persons or 3300 lbs. means you can rescue an incredible amount of people in a short amount of time. The patented external inflatable keel creates the most responsive and best handling Inflatable Rescue Boat on the market.

Standard Features

- Patent pending all drop-stitch construction hull design
- Patented Outside Drop-Stitch Inflatable Keel, U.S. Patent- #8,286,573 2
- Wide beam hull design for stability
- Double layered hull for extra durability
- Low-profile gunwales for rapid and effective rescue
- Flat gunwales accommodate seating for maximum number of people
- Rounded rear pontoons for instant planing
- Removable transom
- 5/8" grab line along sides and long mid-line of hull for safety
- 4" inflatable keel with rubbing strake for extra protection
- Built in oar holders
- Two stainless steel bow D-rings for towing and maneuvering
- Three carry handles
- Dual 4" ribbed rubber bumper strips around hull and under keel for extra protection
- 6 heavy-duty stainless steel D-ring attachment points along the mid-line of the hull
- Heavy-duty, temperature resistant, non-skid EVA foam layer on floor
- Completely self-bailing boat
- Includes manual pump, BTP electric pump, 2 adjustable paddles, carry bag and repair kit

Sea Eagle® Rescue14

3 Year
Manufacturer
Warranty

Our Sea Eagle® Rescue 14, is versatile enough to be used for dives, special ops, water rescues and firefighting situations. We sell our boats to national, state and overseas emergency management agencies and welcome your request for proposals to become your partner for your rescue and disaster preparedness operations.

The 14 ft long inflatable Sea Eagle® Rescue 14 in high-visibility orange has been designed specifically for emergency rescue personnel. The bright orange color makes for a clearly discernible rescue boat. Holds 7 adults - weight of up to 2,000 lbs /907 kgs. Your emergency management team can depend on this boat.

Our exclusive carbon fiber reinforced high-pressure rigid inflatable drop stitch floor provides incredible rigidity, structural strength, and added flotation at a fraction of the weight. This is very important if you are looking for a super lightweight and easy-to-handle tender. This same feature is equally important for boaters who want less weight, faster setup times, increased performance and handling, and an additional safety chamber - plus, zero maintenance. Rest assured this floor has been designed to withstand the rigorous hours and demands of emergency water rescues.

Standard Features

- NMMA & CE Certified
- 5/8" grab line along sides for safety
- 6" Ribbed Rubber Bumper Strip around hull and under Keel for extra protection
- Patented external rigid inflatable keel for precise maneuvering
- Double layer carbon fiber reinforced inflatable floor
- Rounded rear pontoons for rapid planing
- 17 High visibility reflecting strips
- Splash Guards on transom
- 7 Large D-rings for anchor points
- Rescue loops on each side for quick rescue
- 6 Carry handles, Front lifting handle
- Two layers of material on lower tubes for greatest abrasion and puncture resistance
- Wide beam hull design for stability
- 4 Self-bailing drain valves for fast draining
- Includes manual pump, BTP electric pump, 2 paddles, carry bag & repair kit.

- Exterior: **14' x 6'**
- Independent Chambers: **4 + Floor**
- Deflated: **46" x 26" x 14"**
- Hull Weight: **158 lbs.**
- Hull Material: **1000 Denier Reinforced**
- Tube Diameter: **19 Inches**
- Inflation: **25 Minutes**
- Weight Capacity: **7 Persons or 2000 lbs.**
- Engine Capacity: **Up to 25 hp**
- Max. Engine Weight: **175 lbs.**

SEA EAGLE[®] RESCUE BOARD

Inflated: 60" x 29" x 5"

Deflated: 32" x 14" x 6"

Chambers: 1

Weight: 15 lbs.

Hull Material: 1000 Denier Double Layered Reinforced All Drop-stitch Construction

Inflation: 4 Minutes, 15 psi

Sea Eagle[®] Inflatable Rescue Board

With over 50 years of experience in inflatable watercraft design and manufacturing, Sea Eagle is proud to announce the launch of the high-performance Sea Eagle Inflatable Rescue Board. The all drop-stitch constructed Rescue Board specially designed by and for rescue personnel. Nonslip EVA foam padding makes it comfortable to kneel or lie on. Light-weight ergonomic design makes it ideal for flood rescue, big waves or strong surf. 15 psi of working pressure makes it super buoyant, incredibly stable and easy to glide on the water. Four reinforced handles on top and dual side grab lines for easy grip. Eleven strong stainless steel D-rings for attaching equipment. All these features place the Sea Eagle Rescue Board ahead of the rest. Our Rescue Board is ideal for flood rescue, river rescue, beach patrols, ocean rescue, lifeguard services, and the most demanding night rescue conditions.
